SAVI Sync™

As you prepare for your evening meal, it's time to sync your digestive track to optimize digestion and curb late-night cravings.

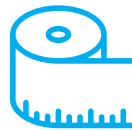

M3
evening

Studies show that most people get less than a third of the recommended amount of fiber each day. Fiber plays an important role with heart health, weight management, and offers many other benefits. SAVI Sync™ contains the SAVI Fiber Trio, a unique and proprietary combination of all three essential fibers: soluble, insoluble, and prebiotic.

Flatter Stomach

SAVI Sync provides powerful soluble fibers of organically grown Acacia trees found in the Mediterranean. These fibers form a cleansing gel that binds nasty fats and cholesterol. Soluble fiber can dramatically trim your tummy.

Super Food – Super Heart

As a registered super-food, oat beta-glucans naturally lower cholesterol by binding fats and quickly removing them from the body.

Optimize Digestion

An apple a day is good advice after all. SAVI Sync uses fiber from dried apples and organically grown peas that assist in purifying the digestive track and quickly removing unwanted chemicals and waste.
